Spirit, Spirit, Spirit

We live in a country that strives for a more perfect union, the ideal envisioned by our founding fathers in 1776. At St. Johns we see ourselves as significant partners in the nation's effort toward this goal. Together we work for justice, for freedom of the individual; most particularly do we work for an orderly blending of our unique personalities, backgrounds, and aspirations.

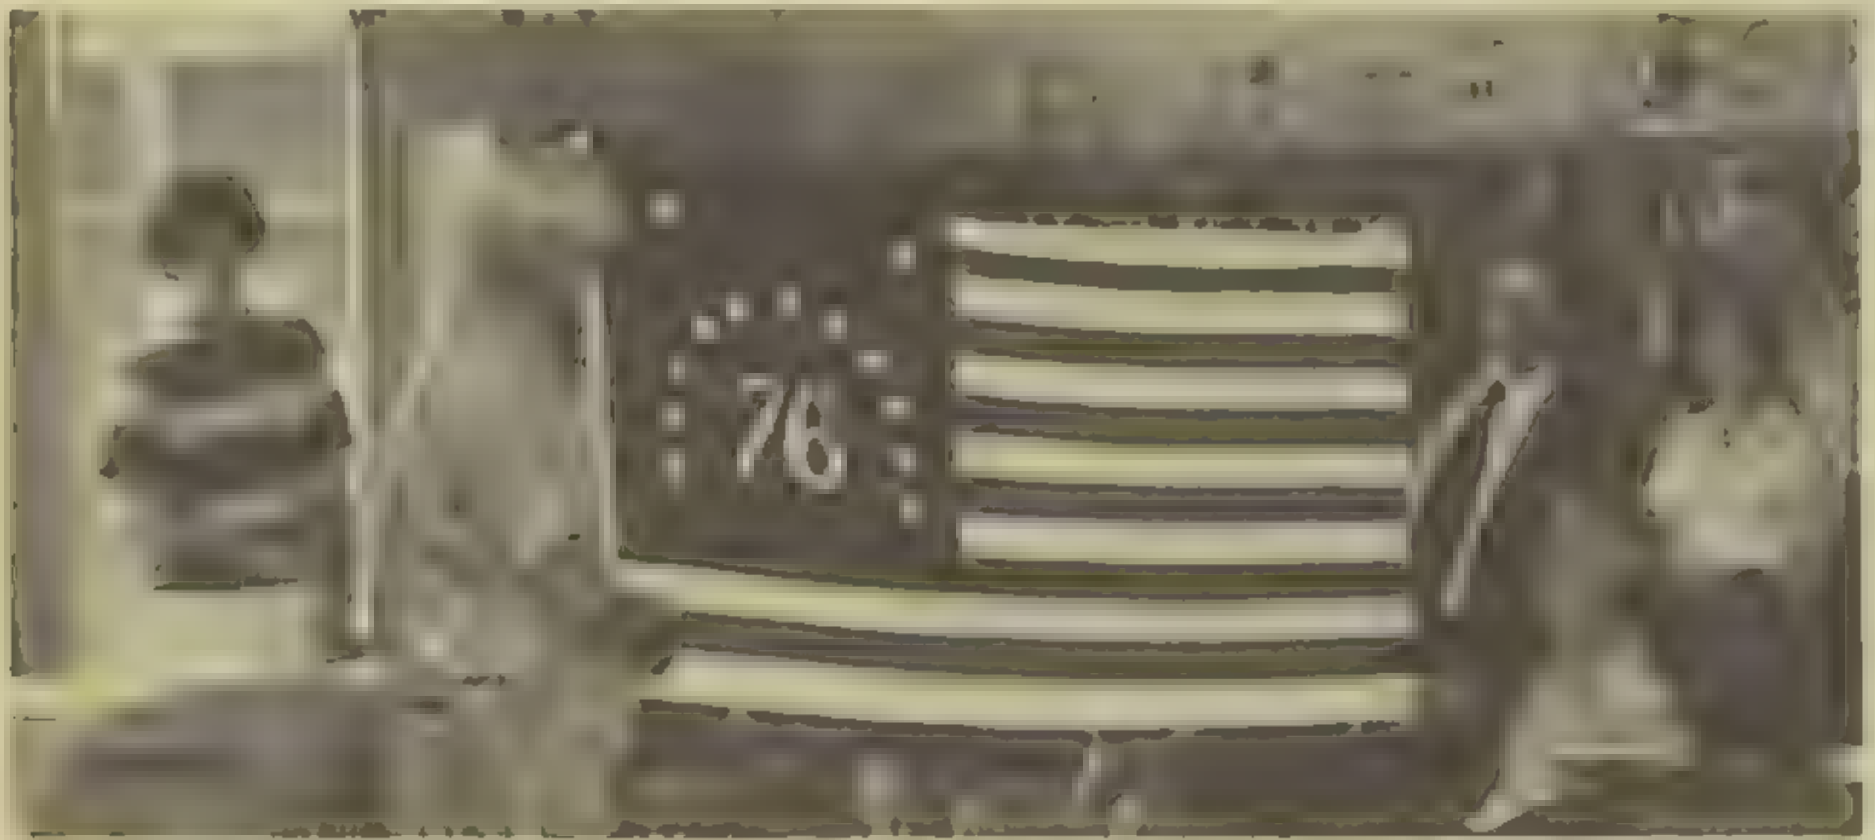

*Our forefathers established
the Constitution of our country.
This achievement — gratefully our heritage —
is the result of a strength:*

*a strength which ensued
because these men cared enough
and were patient enough
to work together.
They had a common desire.
They had enthusiasm.
They had spirit.*

Spirit of '76

*Instilled with the zest
of our forefathers,
we, the students of
St. Johns Country Day School,
can and will show
to ourselves and to our country
that the spirit
kindled here 200 years ago
brightly stirs
within us now.*

We have spirit!

We Can Hear You, Dr. Homan!

four years a history teacher
five years a headmaster
from Mr. to Dr.
the Homan School
the Bicentennial Club

With a continuous smile, with patience,
and with kindness, his colorful character
reaches us all.
To our teacher, friend, and leader,
Dr. Bert G. Homan
we dedicate, with spirit, the 1976 Chalice.

Spirit, Spirit Spirit

*We live in a country that strives
for a more perfect union, the ideal
envisioned by our founding fathers
in 1776. At St. John's we see ourselves
as significant partners
in the nation's effort toward this goal.*

*Together we work for justice,
for freedom of the individual;
most particularly do we work for
an orderly blending of our unique
personalities, background
and aspirations.*

*Our forefathers established
the constitution of our country.
This achievement — gratefully our heritage —
is the result of a strength;
a strength which ensued
because these men cared enough
and were patient enough
to work together.
They had a common desire.
They had enthusiasm.
They had spirit.*

Spirit of '76

*Instilled with the zest
of our forefathers,
we, the students of
St. John's Country Day School
can and will show
to ourselves and to our country
that the spirit
kindled here 200 years ago
brightly stirs
within us now.*

We have spirit.

In Case You're Wondering

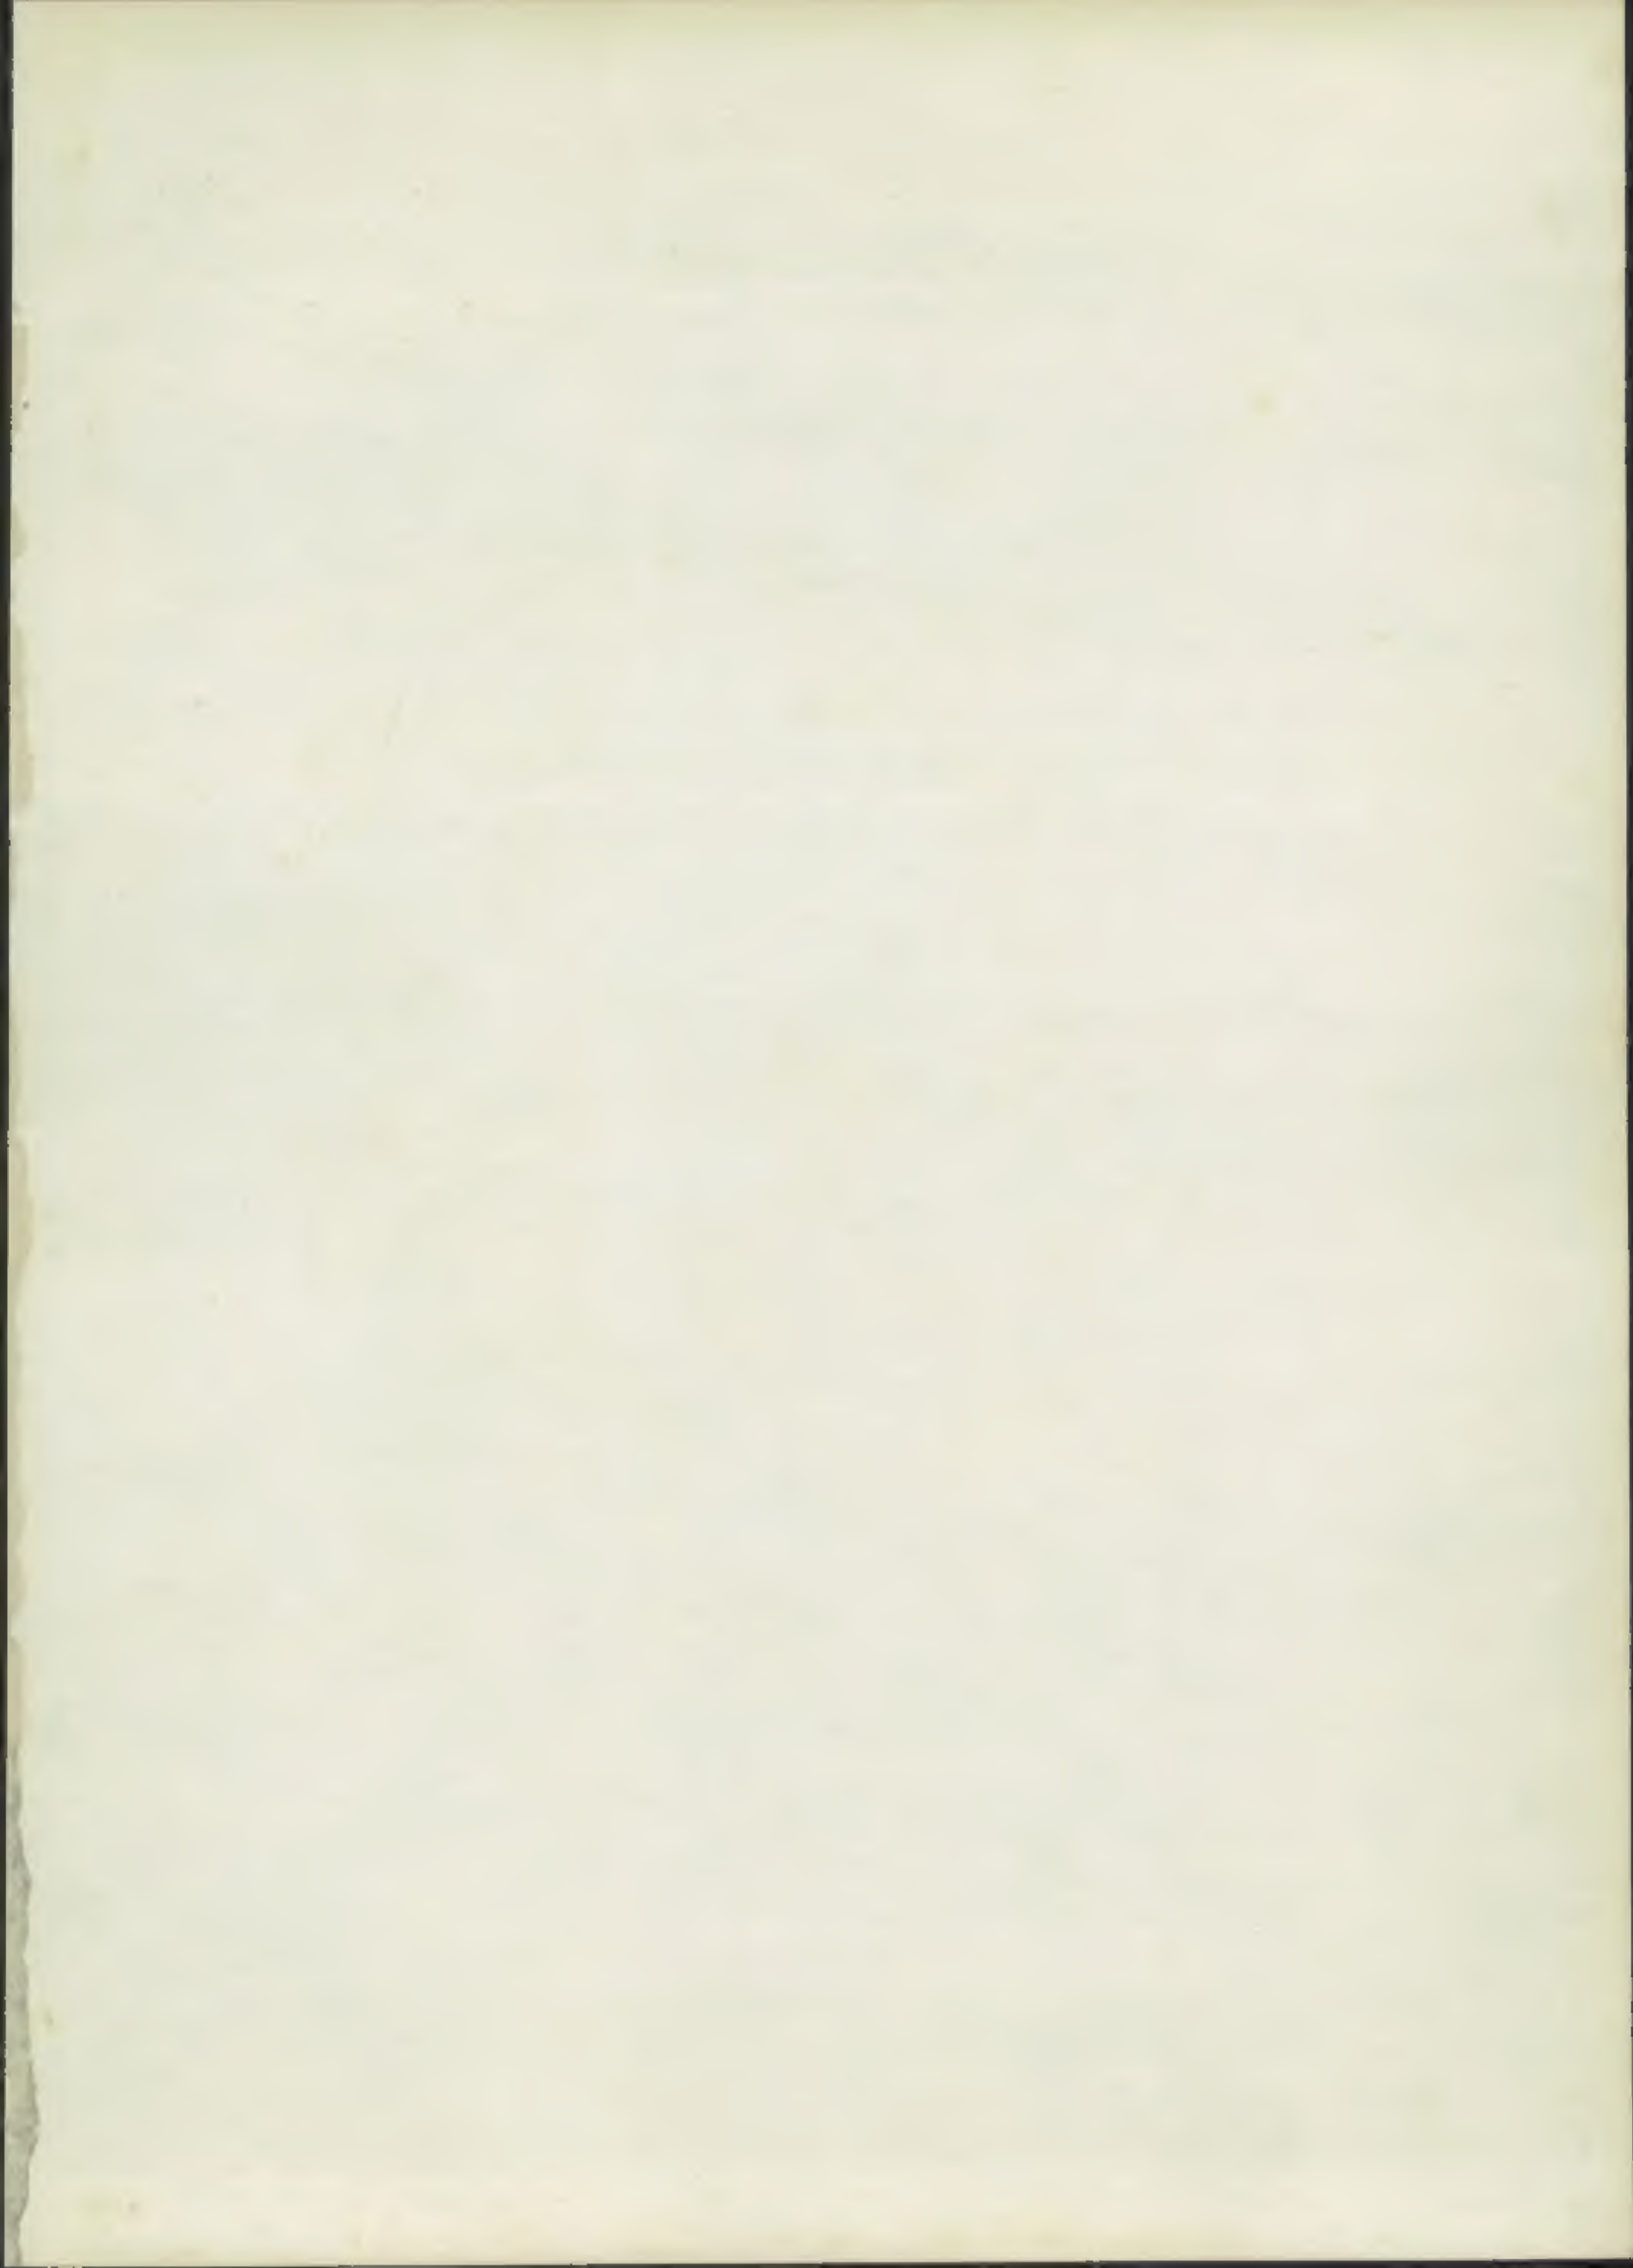

There is one common source of fear which is often overlooked. It is the fear of the unknown. This is the fear of the future. It is the fear of the things that we do not know. It is the fear of the things that we do not understand. It is the fear of the things that we do not see. It is the fear of the things that we do not feel. It is the fear of the things that we do not hear. It is the fear of the things that we do not smell. It is the fear of the things that we do not taste. It is the fear of the things that we do not touch. It is the fear of the things that we do not think. It is the fear of the things that we do not know. It is the fear of the things that we do not understand. It is the fear of the things that we do not see. It is the fear of the things that we do not feel. It is the fear of the things that we do not hear. It is the fear of the things that we do not smell. It is the fear of the things that we do not taste. It is the fear of the things that we do not touch. It is the fear of the things that we do not think. It is the fear of the things that we do not know.
